HIGH RESOLUTION EASY TO BURN OUT

FUSIA 444 was developed for direct casting of jewellery models. FUSIA 444 allows the building of detailed parts with high quality resolution, accuracy, smooth and thin surfaces, and does not require any other manual finishing. It is easy to burn out with standard investments.

THE FUSIA SERIES

The Fusia series includes all the materials suitable for direct casting for jewellery and they are in-house developed by DWS. FUSIA 444 was developed expressly for DWS XFAB range 3D printers.

HINTS FOR DESIGN
